GUTTER DOPE

VOL 55, NO.15 SAN ANTONIO RADIO CLUB SEPT 2, 1955

MEETING
TIME--8:00 PM SEPT.2,1955
PLACE-- Woodlawn Lake Clubhouse
(Cincinnati Ave., just
west of Zarzamora)

GUEST MEDITORIAL

After seeing the Garden State Amtr. Radio Club's Field Day, in New Jersey (who usually wins 2nd or 3rd place), I am thoroughly convinced that the SARC can take this away from them by having a good rig on each band, including the VHF bands, (6mtrs was open to the midwest and resulted in over 125 contacts). Their operation was extremely sloppy compared to the San Antonio gang. With just a little more soup, I'm sure SARC can go over the top. The most active club I have seen was the Huntsville (Alabama) Radio Club, a town with 75 hams and 65 club members. They had a very strong training program, for new hams, that met on alternate Friday nites, and the club hold it's meetings on the other Friday nites. If you parked your car in Huntsville, there was an invitation to attend their meeting stuck under your windshield wiper, by the club. All the members carried these cards and really made you feel at home. All in all though, they will all have to go a long way to beat the San Antonio GANG.

See you at the club Friday nite,
George, W5LFG

CIVIL DEFENSE

This here civil defense situation is really beginning to snowball, so if you want to get cooled off, come on down to the club and get the latest scoop. We ain't gonna say nuthin more about it here, because if we put all the poop out in this thing, you wouldn't come down to the club to get the straight dope. Hope your curiosity has got you wondering. Just ask W5LVE.

TRANSMEETER SNOOPING

Well, looks like Derwin, W5Larry's Uncles Ulcers has aproblem on his hands about hiding the hidden Xmtr next week-end, after finding it last time. Cole, W5DKF, did a fine job of hiding it out behind(that is, in the rear of) Ft. Sam. Due to the week-end holliday, Derwin advises that he shall not seclude the xmtr till the 11th. REMEMBER, no transmitter hunt this week end. These here transmitter seclusions are becoming more interesting as time goes on. Suggest u'all drag ur carcasses out to Olmos park on the 11th of Sept. and see if you can figure out which is the opposite direction the transmitter is hidden in.

GUTTER SWEEPINS

Jack, GKI, celebrating birthday Aug. 30, at THE OFFICE with LVE, LFG, WVI, EJT singing greetings----THU, Ralph, had a grass planting party all by himself, spent all day Saturday putting it in the ground----John, DKK, up from Del Rio again for xmtr hunt and picnic----RSD and XYL, Bob and Aileen celebrating HER birthday at their place in Lytle. Thu and WXT, LVE and KQG, LUU and XYL, OIK and XYL, FND and XYL among those attending ----Want to see a r e a l mobile unit ????? LFG and TSE (and Tinker are in town-REALLY MOBILE. They have a real traveling xmtr, all the way from the table to the bed and on the floor, with the trailer in motion----LUU's XYL, Kathy, ill the past week with a summer cold ----How about that crazy crowd all having chili the other nite at Fran's. Real transmitter huntin chili.

The End

We owe the interesting issue of Gutter Dope to the brain storms of George W5LFG, who is the Man About Town this week. Should keep him in mind for future Editor of same. See ya Friday.
